Press Release 14

September 11, 2026

Editorial Paintings announces a new round of paintings now on view in Gallery 1 at www.editorialpaintings.com:

Democrats Legacy on Gaza

Remember the Genocide

Center of Evil

In the first press release in 2004, Editorial Paintings, stated: “As a result of the Presidential election of 2000, the attack of September 11, 2001, the Enron and Worldcom scandals, as well as, the current war and continuing business scandals, we have witnessed nothing less than corrupt and failed political leadership, insufficient corporate accountability, inept reporting by the news media, and incompetent government officials.”

In 2026, the only difference is that all of that is now much worse. Not only has the United States collaborated in genocide, with the full support of the Senate and the House of Representatives, as well as two presidential administrations, but the United States has again committed aggression, twice; first invading Venezuela and kidnapping its president and then by attacking Iran.

The United States continues in a downward spiral of political incompetence and corruption.
